Re-sending this Warning regarding the login and password Spam Email which was sent January 28th, 2010

100128 Official Communication from Moose International - SPAM WARNING

WARNING WARNING WARNING

Please be advised that if you receive an email from Mooseunits Webmail Technical Services, referencing server maintenance, and requesting your username and password - it is SPAM and needs to be DELETED IMMEDIATELY.

This email is NOT from Moose International. Moose International will never request your username and password via email, and you should never provide your username and password to anyone via email.

If however, you did reply and provided a password, you need to call the Helpdesk so that we can reset your unit's SmarterMail password.

Thank you for your attention to the matter.
