Bulk E-mail January 11, 2008 - QuickBooks & Windows Updates, SmarterMail

All Fraternal Units Should Be Installing "QuickBooks" And "Windows" Updates
Periodically, you will receive updates for Microsoft Windows and QuickBooks Pro. These updates are typically downloaded to your computer while you are connected to the Internet performing other tasks. When you receive a notification that updates to these programs are ready to install, please install them immediately.

SmarterMail Maintenance

Beginning on February 1st, 2008, AutoClean will be activated for SmarterMail. AutoClean will be configured to delete any items older than 180 days in your SmarterMail Inbox, Junk Email, Sent Items, and Deleted Items folders. Moose International provides your SmarterMail email account as a communication tool. Just as you use the telephone for communication and have to take action on your voice mail or answering machine messages, prior to them being deleted, you should take action on any important email messages prior to them being deleted.
