Subject: 090416 Bulk Email - Risk Pool Updates April 16, 2009

**IMPORTANT UPDATES TO  
THE RISK POOL GENERAL LIABILITY COVERAGE**

Effective May 1, 2009, the General Liability Coverage provided by the Risk Pool will no longer provide \$5,000 in "no-fault" medical payments. Payments for medical care will still be made under the liability portion of the coverage for claims on which liability against the Fraternal Unit has been established.

**CHANGES TO THE RISK POOL  
BILLING PROCEDURES**

Effective with the May 2009 Risk Pool Billing, Fraternal Units will no longer be receiving individual invoices for the Risk Pool Assessments. The Risk Pool assessments will now appear on each Fraternal Unit's Accounts Receivable (AR) Statement received from the Finance Department. The Risk Pool Assessments will be billed in three equal installments of one-third each in May, September, and January of each year.

If you have any questions regarding these changes or about the Risk Pool in general, please contact the Risk Management Department at 800-544-4407.
