

Dear CA/NV-NV/CA Brothers and Coworkers;

Just wanted to thank all so very much for the great time shown to my husband Glen and myself at your recent Mid Winter Conference held in Reno. What a fun time we had.. We so enjoyed meeting and visiting with many of you and only wish time would have permitted us to meet more of you.

Thank you for the Great Hospitality shown to us and the attendance at the meetings was fantastic and especially was proud to have had our two service dogs Reya and Lucky in attendance, that does not happen at all meetings.

My only hope is that you went home learning at least one new thing and will share that with those who could not attend and please remember to enjoy life and not stress over something you have no control over and make every day a memorable one for yourself and someone you care about. You will enjoy your Moose membership so much more if you remember these words.

Thanks to each and everyone of you for what you do for Mooseheart and Moosehaven. It's because you being a part of the solution that our Lodges and Chapters will succeed.

I hope our paths will once again cross and until then please continue to support the Greatest Fraternity in the World and if I can ever help I am only an email away
