

**Moose Legion Update**  
**Mark Klein**  
**Moose Legion Councilman**

Gentlemen.

Below are the membership quota numbers for the new 2011-2012 year for all of our 19 Moose Legion jurisdictions in California and Nevada. The great thing about these numbers are that they are reasonable and certainly attainable. Our overall quota is actually 5 members less than last year for which we submitted 467 total membership applications representing 139% of our established quota.

Please know that when a Moose Legion jurisdiction qualifies for the Director's Key Club this year, some of you will already have completed your 1<sup>st</sup> quota while most of the rest will be well over half way there. Please establish a membership resolution for this new year to make your quota, attain Director's Key Club status, and be proactive along with your Jr. past President and his committee in membership retention.

Please see and post the membership campaign announcement attached above and promote a free years' dues for only two new or former members submitted in the name of each Moose Legionnaire to Moose International. CREATE SOME INTEREST and sign some members.

Thanks for all that you do,

Mark
